**What Our Customers Say About MagicScore music notation software:**

Hi, I have purchased Magic Score Maestro sheet music software after evaluating many notation programs. I am amazed at how good this piece of [music composition software](#) is compared to Sibelius and Finale and the price is fantastic. The interface of MagicScore is so much quicker and easier to work with, its like a breath of fresh air. Thanks for producing such a top piece of software. I'm sure your application will have a bright future ...  
...I think this software could be as popular as Sibelius.

Tom Taylor, UK

I appreciate the good support and really think this [music composing program](#) is [easy to use](#) and a true bargain in the market place today! I have used Finale and Sibelius and this product is much easier to use, learn and has most of the same function.

Dave Sass, IA USA

Again, I say thank you for this excellent [music notation software](#). It is as good or better than the notation software that cost \$500.

Julia K., TN USA

This music notation program is fantastic. I've already started writing my music.
