Version 1.3.0d

March 2011

You often download score files in PDF format from the Internet, and you'd wish to hear them?

You'd want to hear the Soprano part from the score your choir master owns on his computer?

PDFtoMusic is designed for you. Open a PDF document, and after a few seconds, you just have to click a button to hear the score playing, and even the lyrics be sung!

Because it only processes PDF files that have been exported from a score editor software, **PDFtoMusic** offers a unique reliability and outstanding results.

Therefore, scanned sheet music cannot be managed by PDFtoMusic.

PDFtoMusic gives you full access at last to a giant PDF music score collection available on the Internet.

If you wish to go further, with [Melody Assistant](#) or [Harmony Assistant](#), you'll be able to alter the score, remove parts, transpose them, or completely rearrange the piece.

For the most demanding users, the "Pro" version of PDFtoMusic also enables to export the result in MusicXML format, which is managed by most of the professional score editors, as well as tune up finely the calculation settings.

For more information about **PDFtoMusic Pro**, please [click here](#).

Features

From a PDF file, PDFtoMusic Pro extracts in a few seconds the music-related elements, and enables to play the score, or to export it in miscellaneous formats, like MIDI, Myr (Harmony Assistant files), or in a digital audio format like WAV ou AIFF.

With its Virtual Singer embedded module, PDFtoMusic Pro also sings the vocal parts!

Support

The complete user manual is provided in [HTML format](#)

Technical support to users (registered or not) is free of charge, by [email](#).

Also, a [discussion forum](#) will let you chat with other users and the software authors.

System requirements

PDFtoMusic runs on Macintosh (Mac OS X 10.3 and more, PPC or MacTel) and Windows (95, 98, ME, 2000, XP, Vista or 7).

Languages

The program is bilingual: English and French.

Purchase

In its trial version, that can be downloaded for free on our site, **PDFtoMusic** enables to play only the first page of a PDF document, and to export only one page at a time. You can use it freely with no limit in time, and if it fits your expectations, you can then purchase a personal license for US\$ 49 (or 40 euros), in order to process more easily multi-page documents.

Updates are **free of charge** for all the versions to come.

No physical media (CD-ROM) is included in the license. If you wish to receive a CD-ROM containing the program version identical to what you can download on our site, please order a **Myriad CD-ROM** in addition.

The miscellaneous accepted payment modes are [described here](#).
